

## Polyurethane Delayed Catalyst C-225 C-225 catalyst C-225

### Overview:

Chinese name: Polyurethane Delayed Catalyst C-225

Alias: foaming retarder C-225, foaming retarder, high rebound retardation catalyst, high rebound retardation catalyst, C-225, catalyst C-225, polyurethane retardation catalyst C-225, retardation catalyst C-225, high Rebound Delayed Catalyst C-225, High Rebound Catalyst C-225, Soft Foam Catalyst, High Rebound Catalyst, Delayed Amine C-225, Delayed Amine Catalyst C-225, Delayed Amine Catalyst

Polyurethane delayed catalyst C-225 is used for rapid demoulding high resilience polyurethane foam amine catalyst. This catalyst can achieve a balance between the foam formation reaction and the aging reaction, optimize the fluidity of the reaction mixture, and at the same time shorten the demolding time. The formation reaction and the thermalization reaction are balanced, the fluidity of the reaction mixture is optimized, and at the same time the demolding time is shortened. Therefore, catalyst C-225 is an auxiliary agent used in the turntable production line.

Chinese name Polyurethane delayed catalyst C-225

Alias Delay catalyst C-225, catalyst C-225, C-225

Substantial catalyst

Effect Foam formation reaction and aging reaction are balanced

Use Shorten demoulding time and increase production capacity

### effect:

NT CATC-225 is an amine catalyst used for rapid demoulding of high resilience polyurethane foam, which can balance the foam formation reaction and the thermalization reaction, optimize the fluidity of the reaction mixture, and at the same time shorten the demolding time, so NT CATC-225 is an additive used in the production line of turntable car seats.

NT CATC-225 is mainly suitable for molding high resilience etc.

**use:**

1. Shorten demoulding time and increase production capacity.
2. Delayed blow-off and cross-linking balanced catalyst to optimize fluidity.
3. Especially suitable for rapid cycle turntable production line.
4. At the same time, it is effectively used in TDI and TDI/MDI mixed systems.
5. Provide good physical properties of finished foam.

**Storage and transportation:**

It should be sealed and stored in a dry, cool and ventilated warehouse.

**package:**

200KG/drum Storage: It is recommended to store in a dry and cool area with proper ventilation. After the original packaging, please fasten the packaging cover as soon as possible to prevent the water and other substances from mixing into the product and affecting its performance. Do not breathe dust, avoid skin and mucous membrane contact. Smoking, eating and drinking are prohibited in the workplace. After work, shower and change clothes. Store contaminated clothing separately and wash it before reuse. Maintain good hygiene habits.

Company Name:	Newtop Chemical Materials (Shanghai) Co., Ltd.
Sales Manager:	Hunter
E-Mail:	<a href="mailto:Hunter@newtopchem.com">Hunter@newtopchem.com</a>
Tel:	+86 21-5161 9972
Mobile Phone:	+86-18301903153
Address:	Rm. 1104, No. 258, Songxing West Road, Baoshan District, Shanghai, China (Mainland)

**FAQ**

Q1: May I get one sample before placing order?

Re: Yes, Sample are available. For normal products, samples are for free and you just need to bear the freight; For those high value products, you just need to freight and certain product cost. When we both cooperate for some times or when you are our VIP customer, free sample will be offered when you need.

Q2: Which payment is available for your company?

Re: T/T, L/C, You can choose the one which is convenient for you.

Q3: How and when can I get my goods after payment?

Re: For small quantity products, they will be delivered to you by international courier(DHL, FedEx, TNT etc.) or by air. Usually it will cost 3-5days that you can get the goods after delivery.For large quantity products, shipping by sea is worthwhile.It will cost days to weeks to come to your destination port, which depends on where the port is.

Q4: Is there any possible to use my appointed label or package?

Re: Yes. If needed, we'd like to use label or package according to your requirement.

Q5: How can you guarantee the goods you offer is qualified?

Re: We always believe honesty and responsibility are basis of one company, so whatever products we provide for you all are qualified.
