

## Zinc isooctanoate CAS 136-53-8 Zinc 2-ethyloctanoate

### Overview:

Zinc isooctanoate is a chemical raw material, soluble in general organic solvents, and is widely used in coatings, synthetic resins, adhesives and other industries.

Chinese name Zinc 2-ethyloctanoate

Foreign name Zinc Octoate

Molecular weight 351.80

Appearance light yellow transparent liquid or water white transparent liquid

Solution stability, transparent and no precipitate

CAS 136-53-8

Flash point 40°C

Density 1.17g/cm<sup>3</sup>

Alias Zinc Isooctanoate

Zinc isooctanoate 136-53-8

### Product properties:

Relative density: 1.12 (25°C)

Viscosity: 350mPa.s (25°C)

Flash point (PMCC): >131° C

### Product Usage:

Zinc isooctanoate can be used as a polyurethane catalyst. The main features are slower gel and better crosslinking catalyst, which can reduce the acidity of the system, accelerate the crosslinking after the

reaction and promote environmental protection. Therefore, it can be used to replace metal tin, lead, mercury, etc. Non-environmental protection catalysts;

Zinc isooctanoate is mainly used in polyurethane coatings, adhesives, elastomers, resins and other industries;

Recommended addition amount: 0.1%-1%PPHP.

Zinc isooctanoate 136-53-8

**Storage and transportation:**

Should be sealed and stored in a dry, cool and ventilated warehouse

**package:**

180KG/drum Storage: It is recommended to store in a dry and cool area with proper ventilation. After the original packaging, please fasten the packaging cover as soon as possible to prevent the water and other substances from mixing into the product and affecting its performance.

Company Name:	Newtop Chemical Materials (Shanghai) Co., Ltd.
Sales Manager:	Hunter
E-Mail:	<a href="mailto:Hunter@newtopchem.com">Hunter@newtopchem.com</a>
Tel:	+86 21-5161 9972

**FAQ**

Q1: May I get one sample before placing order?

Re: Yes, Sample are available. For normal products, samples are for free and you just need to bear the freight; For those high value products, you just need to freight and certain product cost. When we both cooperate for some times or when you are our VIP customer, free sample will be offered when you need.

Q2: Which payment is available for your company?

Re: T/T, L/C ,You can choose the one which is convenient for you.

Q3: How and when can I get my goods after payment?

Re: For small quantity products, they will be delivered to you by international courier(DHL, FedEx, TNT etc.)

or by air. Usually it will cost 3-5days that you can get the goods after delivery.For large quantity products, shipping by sea is worthwhile.It will cost days to weeks to come to your destination port, which depends on where the port is.

Q4: Is there any possible to use my appointed label or package?

Re: Yes. If needed, we'd like to use label or package according to your requirement.

Q5: How can you guarantee the goods you offer is qualified?

Re: We always believe honesty and responsibility are basis of one company, so whatever products we provide for you all are qualified.
